Sun Certified Developer for Java Web Services Study Guide (Exam 310-220)

Jerome Josephraj, Prasad Kukkamalla
Imprint: OSBORNE

Pub date: MAY-06
ISBN: 0072259523
EAN: 9780072259520
Format: SOFT + CD
UK Price: £34.99 - Euro price: 49.00€
SA\$ price: SA\$59.99
Subject area: Certification and Career
Pages: 656 - Illustrations: 95

Description

Written by two dedicated Java Web Services experts, this certification Study Guide will be the key study tool for all intermediate to advanced Java programmers looking to get certified in this hot new area. Based on a proven IT training and exam prep system, this study guide features complete coverage of all exam objectives, 250+ practice exam questions, step-by-step exercises, on-the-job elements and chapter self-tests. CD-ROM contains:

- MasterExam software with hundreds of questions
- Searchable electronic book
- ezFlashcards for use with a PC or Pocket PC
- A bonus exam (with free online registration)

Key features

- Written by the co-developer and authority of this new difficult exam
- 100% coverage of all exam and more than 250 challenging practice questions
- CD-ROM: features hundreds of questions that appear only on the CD, has searchable Electronic Book and Flashcards for your Pocket PC or PC and a bonus exam (with free online registration)

Market

Intermediate to Advanced Java programmers who are already Sun certified programmers for the Java 2 platform (foundation certification).

Table of contents

Chapter 1: XML Web Service Standards
Chapter 2: JAXP
Chapter 3: JAX-RPC
Chapter 4: SOAP and XML Processing APIs (JAXP, JAXB, and SAAJ)
Chapter 5: SOAP 1.1 Web Service Standards
Chapter 6: Describing and Publishing (WSDL and UDDI)
Chapter 7: J2EE Web Services
Chapter 8: Security
Chapter 9: Developing Web Services
Chapter 10: General Design and Architecture
Chapter 11: Endpoint Design and Architecture

Author Biography

Prasad Kukkamalla is a Senior Developer for Workbrain, Inc. with more than 10 years experience with software development. Kukkamalla has been designing and developing enterprise Java and wireless solutions for the past four years, most recently completing an enterprise class implementation of Parlay X standard based Web Services. Prior to this, Kukkamalla worked for both Lucent Technologies and Hughes Network System.

Jerome Josephraj, SCJP (Essex, UK) is a System Analyst and Web Services integration expert with more than 8 years of experience with software development. Jerome is currently the Chief Architect for BizIT Solutions, which specializes in Web Services. Jerome has also authored an article on Struts and WebServices for IBM.

Oracle JDeveloper for Forms & PL/SQL Developers; A Guide to J2EE Web Development

Peter Koletzke, Duncan Mills

Imprint: OSBORNE

Pub date: MAY-06
ISBN: 0072259604
EAN: 9780072259605
Format: SOFTBACK
UK Price: £28.99 - Euro price: 40.60€
SA\$ price: SA\$49.99
Subject area: Database and ERP
Pages: 544 - Illustrations: 100

Description

Two Oracle experts demonstrate techniques for working within J2EE and JDeveloper for the thousands of developers currently using Oracle Forms and the PL/SQL language. Oracle is shifting their focus towards Java technologies, so you will need to know how to use the Java-based J2EE and JDeveloper. The book includes explanations of the Application Development Framework (ADF). Throughout, high-level and low-level Forms concepts are related to Java concepts so that you can become comfortable with the new terminology.

Key features

- Covers the new components required when developing and deploying a J2EE application
- Special callouts note how JDeveloper techniques translate to PL/SQL or Oracle Forms
- All code and examples will be available online

Market

The book is targeted toward readers of Oracle 10g PL/SQL Programming and developers.

Table of contents

Part I: Overview

1. What is J2EE and How Can It Help Me?
2. JDeveloper and Application Development Framework as RAD Tools

3. J2EE Architectures
 4. Java Basics for PL/SQL Programmers
 5. Business Services in ADF
- Part II: Designing the Application
6. Database Design
 7. MVC Design
 8. Deployment Considerations
- Part III: Developing the Application
9. Developing the Controller Layer
 10. Developing the Model and Business Services Layers
 11. Developing the View Layers
 12. Using JHeadstart with JDeveloper
- Appendix A - Answers to Common Questions

Author Biography

Peter Koletzke, an Oracle Certified Master, is the Technical Director and Principal Instructor at Quovera.

Duncan Mills is Senior Principal Product Manager of Application Development Tools at Oracle Corporation.

OCA Oracle 10g Application Server Administrator Exam Guide (Exam 1Z1-311)

Sam Alapati

Imprint: OSBORNE

Pub date: APR-06
ISBN: 0072262710
EAN: 9780072262711
Format: SOFT + CD
UK Price: £34.99 - Euro price: 49.00€
SA\$ price: SA\$59.95
Subject area: Certification and Career
Pages: 812 - Illustrations: 225

Description

A powerful book/CD-ROM package for 10g certification exam preparation.

This comprehensive book and CD-ROM package, exclusively from Oracle Press, covers all the material on the new Oracle 10g Application Server administration exam. Certification candidates preparing for this difficult Web administration exam will get hundreds of practice questions, hands-on exercises, and study tips. The book will also serve as an indispensable on-the-job reference.

Key features

- Two complete practice exams
- Detailed answers with in-depth explanation of both the correct and incorrect answers
- Complete electronic book

Market

Anyone preparing for the Oracle 10g Application Server administration exam

Table of contents

1. Oracle Application Server Key Components and Features
2. Analyzing Oracle Application Server Architecture
3. Installing OracleAS Infrastructure and the OracleAS Middle Tier
4. Using Oracle Application Server Management Tools
5. Managing and Configuring Oracle HTTP Server

6. Configuring Directives and Virtual Hosts
7. Managing and Configuring OracleAS Web Cache and OC4J
8. Managing & Configuring the OracleAS Portal
9. Deploying PL/SQL and CGI Applications
10. Deploying J2EE Applications
11. Configuring Oracle Application Server Components in OID
12. Managing Access Using Delegated Administration Service
13. Administering the OracleAS Single Sign-On Server
14. Securing OracleAS Components Using SSL
15. Managing and Configuring OracleAS Certificate Authority

Computer Security; 20 Things Every Employee Should Know

Ben Rothke

Imprint: Osborne

Pub date: FEB-06

ISBN: 0072262826 - Previous: 0072230835

EAN: 9780072262827

Format: Saddle Stitch/Lay flat

UK Price: £4.99 - Euro price: 7.00€

SA\$ price: SA\$7.95

Subject area: Networking and Communication

Description

Securing corporate resources and data in the workplace is everyone's responsibility. Corporate IT security strategies are only as good as the employee's awareness of his or her role in maintaining that strategy. This book presents the risks, responsibilities, and liabilities (known and unknown) of which every employee should be aware, as well as simple protective steps to keep corporate data and systems secure. Inside this easy-to-follow guide, you'll find 20 lessons you can use to ensure that you are doing your part to protect corporate systems and privileged data.

Key features

The topics covered include:

- Phishing and spyware
- Identity theft
- Passwords
- Viruses and malware
- E-mail
- Personal firewalls and patches
- Management of sensitive information
- Use of corporate resources
- Many more....

Market

Employees in corporations, government offices and academic institutions, who access networked PCs, send and receive e-mail, access secure corporate data, the Internet or work from remote locations.

Table of contents

13. Phishing
14. Identify Theft
15. Be Aware
16. Choose Passwords Wisely
17. Viruses & Malware
18. Remote Access Usage
19. Know the Risks of E-mail
20. Spyware
21. Surf the Web Wisely at Work
22. Be Aware of the Dangers of the Internet
23. Instant Messaging
24. Firewalls & Patches
25. Hand-helds
26. Backup Your Data
27. Managing Sensitive Info Wisely
28. Secure Your Workspace
29. Social Engineering
30. Corporate Resources Only for Work
31. What to Do When Things Go Wrong
Keep Things in Context

Video Shooter; Storytelling with DV, HD, and HDV Cameras

Barry Braverman

Imprint: CMP

Pub date: FEB-06
ISBN: 1578202892
EAN: 9781578202898
Format: Soft +DVD
UK Price: £22.99 - Euro price: 32.20€
SA\$ price: SA\$39.95
Subject area: Digital Media
Pages: 256

Description

Video Shooter is a guide to both the mechanics of the video camera and the craft of shooting. Written by a veteran in the industry and utilising an engaging, conversational style (including illustrative anecdotes from the author's many years of experience), the book takes the reader beyond "button pushing" to teach the complete range of skills required to capture compelling images. Topics include equipment selection, camera setup and operation, shooting techniques, and working with lighting and audio.

Key features

- Clear, concise information on choosing and using video cameras and accessories
- From-the-trenches insight into the art and craft of capturing compelling images
- The companion DVD contains tutorials, footage demonstrating storytelling techniques, and technical matter such as a comparison of various filters

Market

- Independent filmmakers and documentary shooters
- Industrial, educational, and government video producers

Table of contents

Chapter 1: The DV Point of View
Chapter 2: DV Storyteller
Chapter 3: The Storyteller's Box
Chapter 4: The Lens: Your Window on the World
Chapter 5: Supporting Your Storytelling Goals
Chapter 6: Lighting Your Story
Chapter 7: Sound
Chapter 8: Beyond the Image
Chapter 9: Filters
Chapter 10: Shooting for DVD

Author Biography

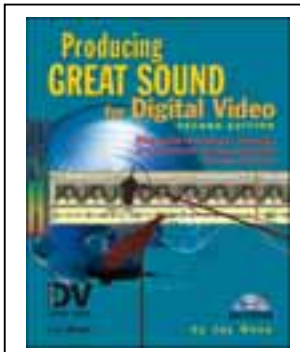

Barry Braverman is a veteran director of photography with over twenty years of experience including work on *National Geographic* specials, network television programs, national commercials, and music videos. The director of DVD training at Video Symphony in Burbank and a contributing editor to *Video Systems* magazine.

Newton's Telecom Dictionary, 22/e

Harry Newton

Imprint: CMP

Pub date: APRIL-06
ISBN: 1578203198- Previous: 1578203155
EAN: 9781578203192
Format: SOFTBACK
UK Price: £21.99 - Euro price: 18.20€
SA\$ price: SA\$36.95
Subject area: Telecommunications
Pages: 1000

Description

Even though the boom years of the 1990s are over, the telecom industry is rebounding and morphing yet again — there are now more mobile phones in the world than landlines and more and more households are using broadband. *Newton's Telecom Dictionary* helps technology and business professionals stay on top of the ever-changing network, telecom, and IT industry. Industry guru Harry Newton explains technical concepts in non-technical language that anyone in business can understand, making this an essential reference tool for anyone involved with telecom and IT systems and services. Manageable, jargon-free chapters help readers get a handle on the myriad new telecom services, equipment, and terms and acronyms that are sprouting just as quickly as ever.

Key features

- The biggest-selling and most comprehensive dictionary of telecommunications, networking, and IT terms in the world
- Used by more companies — such as AT&T, Cisco, and Sprint — for training and employee orientation than any other text
- With over 22,000 definitions, the 22nd updated and expanded edition is over four times larger than its nearest competitor
- Complete coverage of wireless, fiber, broadband, intranet, e-commerce, IT and technology finance terms
- Hundreds of new terms defined in this edition, plus many updated and expanded definitions

Market

- Anyone in the telecommunications, networking, Internet, or computer industry
- Sales people who include the definitions of terms in proposals to customers
- Telecom and IT systems management personnel

Table of contents

N/A

Author Biography

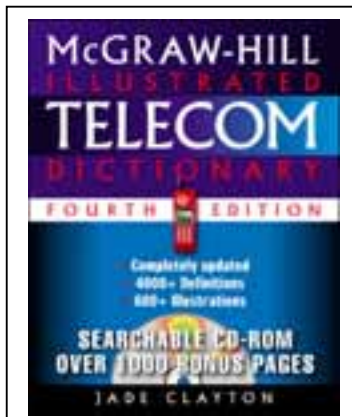

Harry Newton has 30 years of experience in telecommunications. He founded six monthly magazines: *Computer Telephony*, *Teleconnect*, *Call Center*, *Imaging*, *LAN* and *Telecom Gear*. He also founded the enormously successful trade show, the Computer Telephony Expo. Harry holds an MBA from Harvard Business School and an undergraduate degree in economics from the University of Sydney, Australia.

Adobe Video Collection On the Spot; Timesaving Techniques Using Premiere, After Effects, Encore, and Audition

Richard Young, Ron Dabbs

Imprint: CMP

Pub date: FEB-06
ISBN: 1578202655
EAN: 9781578203192
Format: SOFTBACK
UK Price: £21.99 - Euro price: 18.20€
SA\$ price: SA\$27.95
Subject area: Digital Media
Pages: 240

Description

Adobe Video Collection On the Spot delivers over 350 techniques to help readers make compelling motions graphics and special effects. An invaluable reference, the book helps novice readers efficiently get up to speed by explaining what they need to know, when they need to know it. All of the essential methods that pros use to get the job done are clearly and concisely detailed with helpful illustrations. For experienced users, the book provides comprehensive information to help readers acquaint themselves with new features of Adobe After Effects, Encore, Audition, and Premiere.

Key features

- Tips about interface issues help readers save time in production by efficiently combining programs within the collection.
- The concise presentation of pro techniques in this book will appeal to new and experienced editors alike.
- The authors are video professionals with diverse experience in the collection software

Market

- Intermediate to advanced
- Students, professional motion graphics artists and editors

Table of contents

Premiere

1. Interface, Setup, and Import
2. Effects, Transitions, Colour Correction
3. Graphics, Titles, and Motion

4. Timeline and Editing
5. Audio with Premiere
6. Media Management and Troubleshooting
7. Export

After Effects

8. Effects
9. Masks and Mattes
10. 3D
11. Titles
12. Keyframes
13. Blending Modes
14. Paint

Audition

15. Laying Tracks
16. Cues, Loops, and Sounds
17. Audio Effects
18. Mixing
19. Mastering

Encore

20. Menus
 21. Buttons
 22. Navigation
 23. Burn, Baby, Burn!
24. Integration (Playing Well with Others)

Author Biography

Richard Young is a freelance video editor and effects artist who writes frequently about video software applications. He lives in San Francisco.

Ron Dabbs is senior media engineer at Evatone Inc. and founder of the Musician's Technical Workshop. His production credits include several platinum recordings and numerous awards for music tracks for video, television and advertising campaigns. He is the author of *Using Audition* and lives in Florida.
